Postgres	

About Me

Full-stack Web Developer experienced in building responsive, scalable web apps using Vue, Nuxt, React, Next, Node.js, Express, Scala (Play Framework), MongoDB, and PostgreSQL. Proficient with Git and comfortable working across both front-end and back-end.

Education

Bachelor Science in Electrical Engineering

2015 - 2019

Cebu Institute of Technology - University

Full-Stack MERN Developer Training

2020 - 2021

Zuitt-Coding Bootcamp Philippines

Work Experience

Medspecialized, Inc.

Front-End Web Developer

Aug 2022 - Jan 2025

- Built and maintained the front-end of websites for the company and its sister companies using modern web technologies.
- Developed and enhanced key apps:
 - Food Ordering App: Created with Vue for employee meal orders.
 - Onboarding App: Developed with Nuxt 3 to streamline new hire processes.
 - Course App: Improved with AngularJS for better user interaction.
 - Task Tracker App (India): Recreated using Quasar for better performance.
- Used Postman and MongoDB to modify databases and verify outcomes.
- Occasionally updated backend APIs and controllers during debugging when backend developers were unavailable.
- Collaborated with teams to deliver responsive, user-friendly web applications.
- Ensured cross-browser compatibility and adhered to coding best practices.

Vauldex

Pre-employment Software Engineer Position Training Program

Feb 2025 - Jun 2025

- Completed rigorous training in frontend and backend web development with real-world projects and technical evaluations.
- Built responsive interfaces using Vue.js and Nuxt.js, and developed backend services with Play Framework (Scala).
- Gained practical experience with PostgreSQL and H2 for database design and management.
- Contributed to an Attendance Management App, implementing features like user authentication, attendance tracking, and reporting.
- Collaborated with team members for seamless frontend-backend integration and improved performance through debugging and optimization.
- Strengthened technical proficiency and teamwork skills in an agile, project-based environment.
